*** In case of any eventuality that forces us to change hotels, these will always be of similar or greater rank and characteristics. Nnever less.**

INFORMATION ABOUT THE PLACES WE WILL SEE.

THE GREAT MIGRATION

There is no place in the world so vibrant to observe the journey of life, privilege witnessed by very few.

The biggest animal show on earth. A life cycle that stars in the south of the Serengeti with the birth of more than half a million offspring at the beginning of the year ,

This is how the life cycle of the great migration begins, in which 1,5 million wildebeests, 300 thousand zebras and another 300,000 Thompson and Grant gazelles, go over a long a path full of threats in search of green pastures for food. Great challenges await them ahead, On the way, they will have to cross the rivers Mara and Grumeti, with hundreds of stealthy crocodiles waiting to sink their teeth.

A beautiful circular road not exempt of great dangers: cheetahs, hyenas, lions (not less than 3,000 lions), and leopards, will be on the prowl to hunt the cubs and every antelope that lowers his guard.

Since the beginning of the year (January, February, March and April), we will pinpoint the herds in the south of the Serengeti and Ngorongoro Conservation Area. In May, June, July and August, the great migration begins its odyssey towards northern lands on a 2000 km long journey. By the end of September and the beginning of October

SERENGETI

National park famous throughout the world for the large number of big cats and the great migration. **It can be firmly stated that it is the best place on the continent to observe big cats: lions, leopards, cheetahs; although there will be also seen large herds of herbivores such as elephants, buffaloes, and hippos.**

A wild life explosion: crocodiles, hyenas, cheetahs, small primates such as the Senegal Bushbaby and hundreds of other animal species await us.

The Great Migration shakes the earth during its journey through the plains, beaten by the wind. We'll be able to see it from our truck or our Land Cruiser 4x4. At the time of the crossing, the group of animals waits until one of them takes the first step to cross the stretch full of crocodiles and thus be able to continue. But the Serengeti does not lack of benign aspects: The well-kept park, is a model for the conservation of African flora and fauna, where you can observe the European Roller with lilac chest, and the herds of giraffes, as well as contemplating the squat acacias, in the form of umbrellas that are scattered throughout the landscape. They've been, along generations, a source of inspiration for writers and script writers.

NGORONGORO

CONSERVATION AREA

Ngorongoro, 'Cold place', in the Maasai language. Center of biodiversity where many of the great animals of African fauna can be seen, Including the Black Rhinoceros, being the latter one of the last refuges of this species.

The Ngorongoro Conservation Area combines the most striking mix of African landscapes, fauna and archeological sites of Africa. This is why it is called the "African Eden" or "the eighth wonder of the natural world" UNESCO World Heritage Site.

Just 3.7 million years ago, the first hominids trod these lands and, by that time, the great crater of more than 20 kilometers in diameter did not exist yet. **The hominids who lived and died in what is now the Olduvai Gorge, might have seen an enormous mountain, similar to the nearby Kilimanjaro which according to geologists erupted 2.9 million years ago, drawing in the landscape an immense scar;** Hundreds of thousands of years of wind and water softened the terrain, turning the volcano into a paradise; A perfect refuge for the more than 25,000 animals that inhabit today the world's largest volcanic caldera.

Located in the great Rift Valley, almost 5,000 kilometers long where the horn of Africa insists on separating from the rest of the continent, the **Ngorongoro Nature Reserve occupies one of the most imposing places in African geography.**

It borders the Serengueti to the northwest and, nearby, the shores of Lake Victoria can be found. **In its bosom is the throat of Olduvai,**

INFORMATION ABOUT THE PLACES WE WILL SEE.

where you can find the oldest human fossils in the world, and following the plains, advancing along with the annual migrations of wildebeest, zebras and gazelles, getting to the highest point of Africa, is Kilimanjaro, Mecca of the cyclists of the five continents.

LAKE MANYARA

Under the Rift Valley, despite being one of the smallest national parks in Tanzania, with only 330 square kilometers, being 200 occupied by Lake Manyara, is without a doubt one of the most beautiful parks.

In its surroundings are the dense jungles, fed by the springs that rise at the foot of the Rift Valley as well as the wetlands, in the lake.

I this place are found numerous animal species, are found numerous animal species, among which stand out the colonies of baboons, green monkeys, elephants, giraffes and more than 380 species of birds

Among the numerous predators we can find, leopards and lions are the predominant, not being its habitual environment, due to the humidity and

the insects. And an essential characteristic is their ability to climb the tree branches.

Due to the variety of its fauna and flora, its beauty and its splendid strategic position, it is a place worthy of our exciting itinerary.

dry is an amazing place. A place where the elephants dot the plains like cattle, and where the lion's roars fill the night, all in a context of constant change in their landscape with the largest collection of elephants in the world.

The ecosystem has more than 700 resident lions and sightings are common. Less visible, but present is the leopard and cheetah. We can see large herds of zebras, wildebeest, giraffes, buffalo and other herbivores. And with more than 450 species of birds. Some say that Tarangire is the best destination for **bird-watching in Tanzania and probably the best in Africa**.

But this is a place where wildlife tells only half of the story. Dominating 2,850 square kilometers should be reason enough to come here, but also for its great valleys of the savannah and also its vast marshes. Its wild inhabitants scatter across the Maasai steppe, over an area 10 times larger than the park.

ARUSHA NATIONAL PARK

Named for its great beauty "the jewel of Africa", with only 137 square kilometers, is the closest park of the famous "safari city" of Arusha, where our Safari Bike Africa sales office is located.

Not only the wildlife abounds in it, but it is one of the most beautiful and varied topographies in Tanzania. There you will be able to see the rugged Mount Meru - second highest peak in Tanzania with 4,566 meters in height -, Momela lakes and the caldera of Ngurdoto, which was formed about fifteen million years ago. We will be followed by the indescribable glances of giraffes, buffalos and small primates while being immersed in a lush tropical forest. **An exclusive SAFARI BIKE AFRICA circuit.**

TARANGIRE

This is one of the most underrated parks in Africa, but thanks to its proximity to the Serengeti and Ngorongoro, Tarangire Park is usually only allocated a day trip as part of a safari. But what people do not know is that in the season

INFORMATION ABOUT THE PLACES WE WILL SEE.

We will end with a safari on foot, with an armed park ranger, towards a beautiful waterfall, which will undoubtedly surprise you.

BIKE SAFARIS

ARUSHA NATIONAL PARK

Our best bike safari for everyone levels. A flat 6 Km route that will leave us open mouthed by the singular beauty of the park in the heart of a rainforest and the possibility of finding fauna on the way.

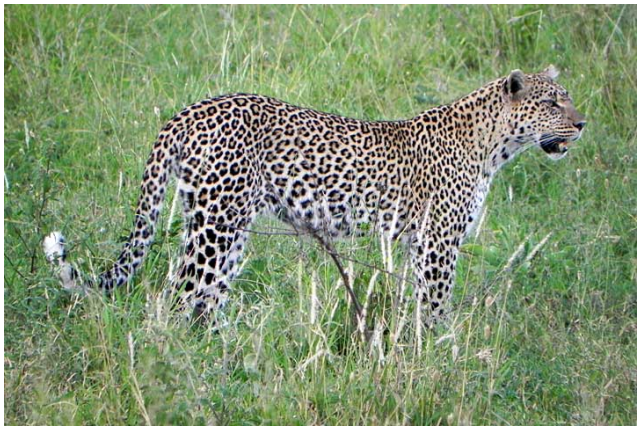
En route we will always be escorted by a park ranger. It is a tour of singular beauty and we will have the magnificent sensation of riding in a National Park. If we have time we will have the possibility of making a new route of 10km.

LAKE MANYARA

Safari on bike to the very shores of the lake, described by H. Hemenwa as the "most beautiful lake in Africa." An easy bicycle tour through villages and plantations which finish in a spectacular forest of acacias, with a large number of baboons and sometimes zebras, gazelles and other antelopes. In the lake, we will find local fishermen in rudimentary boats, fishing between pelicans, cormorants and flamingos.

WALKING SAFARI

In Arusha National Park, we will enjoy an adventurous and impressive safari on foot,



next to an armed ranger of the same park, that will guide us to a beautiful waterfall, that mThe bravest will be able to cool off in their crystalline and cold waters, which come from the imposing Meru volcano. **On the way, we might see different herds of animals, such as buffalo, giraffes, zebras, dik-diks, baboons ...**

ZANZIBAR BEACH

"THE ISLAND OF SPICES"

More landscapes and more beauty; Fauna, ethnicity and culture. We'll make a break in Zanzibar, which is defined by its tranquility in paradisiac beaches and amazing seabed. In other words, a real paradise. Zanzibar is a place that stays in the background compared to the interior of Africa, but it is still an ideal place to practice diving or enjoy its beaches.

The island is the perfect place to end a great trip. It is known as "the jewel of Africa", not only for its luxury, but also for the neighboring "Islands of Spices". It is one of the best places in Africa, if not the best, to spend a relaxing and well-deserved vacation while sunbathing or snorkeling.

Zanzibar is an island with an area of about 1,600km2, a little less than half of the island of Mallorca. It faces Dar es Salaam, the industrial capital of Tanzania. Stone Town is the reference city of the island (also called the "stone city"). It is famous for the beauty of its hand-carved house doors and is one of the most important cities in Swahili culture. Stone Town is also famous for its music and for being the cradle of music geniuses such like Freddy Mercury or Tracy Chapman.

Zanzibar is also the birthplace of Swahili. In the streets of the capital stands out the history of what was the largest commercial port of the Indian routes and, unfortunately, bastion of the global slavery trade. Far from that dark era, the island is nowadays an example of multicultural coexistence.

Some of the activities that you can do outside the ones we have prepared are:

- Visiting Stone Town's Historic Center.
- Taste a good cocktail facing the sea on the terraces of Stone Town at sunset.
- See the red colobus, autochthonous of Zanzibar, in the jungle of Jozani.
- Swimming with dolphins in Kisimkazi.
- Diving or snorkeling in the Mnemba atoll
- Watching fishermen at sunrise, especially on the west coast.

ACCOMMODATION

MOSHI
HONEY BADGER LODGE • www.honeybadgerlodge.com

FULL BOARD

Set in a rural community, the lodge offers breathtaking views of Mount Kilimanjaro (the highestmountain in Africa). A beautiful lodge committed to renewable energies (solar energy) and humanitarian projects for the neediest local communities. Internet and swimming pool.

ARUSHA
OLPOPONGI MAASAI • www.olpopongi-maasai.com

ALL - INCLUSIVE

Rural lodge in the middle of the Maasai land formed by bungalows. They are built with their own hands in the purest Maasai style. Under the watchful eye of the roof of Africa, the Kilimanjaro, and around a bonfire, we will have the opportunity to hear about their ancestral customs and rituals, next to a succulent traditional barbecue. We will experience the true life in a Maasai boma, but with "some luxury". All in one of the most famous tribes.

SERENGUETI
KISURA SERENGETI CAMP • www.kisuraserengeticamp.com

FULL BOARD

Luxury mobile camp in a privileged location in Seronera, the heart of the Serengeti. The spacious tents have magnificent terraces to see astonishing sunsets in the middle of the savannah, surrounded by animals. The camp is situated in the middle of two gigantic Kopjes, to which you can climb to see the most unforgettable sunset of your lives. The staff will take care of every need we have: from a hot bath to any other thing that guarantees an authentic ambiance of "old safari".

ACCOMODATION

MTO WA MBU
TWIGA CAMPSITE LODGE

BED & BREAKFAST

www.twigalodgecampsite.com

Small lodge located in the center of Mto Wa Mbu, a village surrounded by banana plantations (more than 30 different species, including the red banana). Room with private bathroom and shower. Swimming pool.

KARATU
HHANDO COFFEE LODGE

www.hhandocoffeelodge.com

FULL BOARD

A new and original lodge, located away from the noise of the city, surrounded by nature and coffee plantations. Due to the proximity of the Ngorongoro Conservation Area, it is very common to see elephants, antelopes, different primates go by, as well as listening to the howls of hyenas and even the roar of lions from your beautiful hut. This is possible thanks to the hills. You can also enjoy a magnificent swimming pool!

ACCOMMODATION ·

MTO WA MBU
MANYARA WILDLIFE SAFARI LODGE

BED & BREAKFAST

www.wildlifecamp.co.tz

In the middle of Tanzania's savannah, among the cliffs of the Rift Valley and with breathtaking views of Lake Manyara, lies the Manyara Wildlife Safari Lodge. The golden escarpment 600 meters high in the Rift Valley creates a crater, on the edge of which is the camp.

Manyara Wildlife Safari Lodge is able to offer the most luxurious safari lodgings while remaining faithful to the natural element of the safari experience in Africa. The camp consists of ten luxurious canvas huts all with private balconies overlooking the real wild Africa. Swimming pool "Infinity pool", private baths and showers and internet.

ZANZIBAR -JAMBIANI-
CORAL ROCK HOTEL · www.coral-rock.com

HALF BOARD

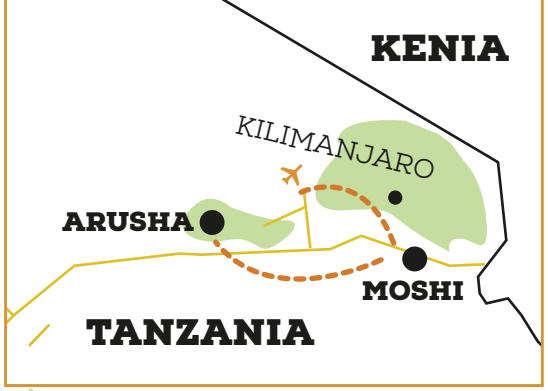
Coral Rock Zanzibar has been described as the jewel of Jambiani. The hotel's exquisite location is uncomparable. Built on top of an ancient coral rock projecting onto the ocean and flanked by two pristine beaches. The hotel offers an ideal vacation on this tropical island. The changing tides reveal 100 shades of blue. Whether in the restaurant, bar, pool or any hotel room, visitors can experience the breathtaking beauty of its sea views.

A natural sand barrier that stretches over a kilometer to the sea, creates a spectacular natural pool protected from the strong ocean currents.

Jambiani is one of Zanzibar's best-kept secrets. This small fishing village was, until recently, practically inaccessible. The locals exhibit genuine sincerity in welcoming Jambiani visitors. Hotel with internet. Rooms with air conditioning.

ITINERARY

SAFARIBIKEAFRICA.COM



THE ADVENTURE BEGINS

Day 1

ARRIVAL AT THE AIRPORT KILIMANJARO

FULL-BOARD STAY AT HONEY BADGER LODGE E

We will be waiting for you at Kilimanjaro International Airport. Then, we'll go to Moshi, capital of Kilimanjaro, where we will spend our first night. **Before the welcome dinner, we will visit the forest of Colobos,** where we will be able to observe its peculiar and friendly primates.

Day 2

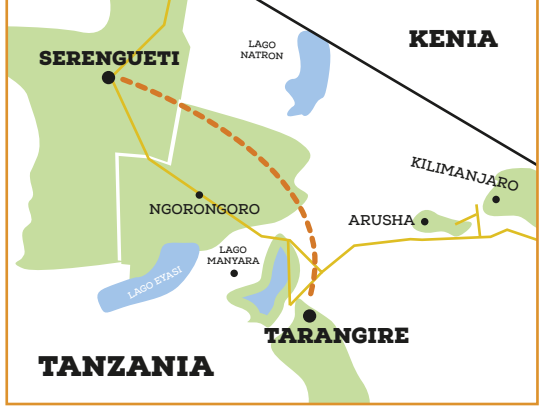
ARUSHA NATIONAL PARK

OLPOPONGI MAASAI

After breakfast with the tribe, they will give us an effusive farewell to transfer us in our vehicle to the gate of Arusha National Park. **We will start our game drive through the park, warming up engines. Then, we'll perform a bike safari through the park, accompanied by an armed ranger. this route is granted exclusively by the park authorities.** We will ride our bikes through a lush tropical forest, full of magic sounds and in which we will have the opportunity to cross with its autochthonous fauna.

Before leaving the national park, we will make **a walking safari together with an armed ranger to the base of the most beautiful waterfall in the park,** only accessible for the more adventurous, where we will be able to contemplate the fauna that lurks in its surroundings until reaching its waters, place where they quench their thirst. We will eat our lunch box right there and the bravest ones among you will be able to cool-off in its crystalline and cold waters, sourced by the volcano Meru.

Before dark, **we will arrive at the Massai village of Olpopongi, where we will spend the night and be warmly welcomed by our Maasais friends, enjoying a succulent and traditional Maasai barbecue with them, around a cozy bonfire.**



Day 3
TARANGIRE
NATIONAL PARK

FULL BOARD
TWIGA CAMPSITE MTO WA MBU.

After having slept like authentic Maasais and having lived with them, we will go to the national park of Taranguire, where we will make a game drive in our vehicle, in search of its wild fauna and unique landscapes of postcard-worthy scenery. The circuit that runs along the banks of the river **will give us the opportunity to see lots of animals and herds of hundreds of elephants.** We will spend the night at Twiga Campsite (Mto Wa Mbu)

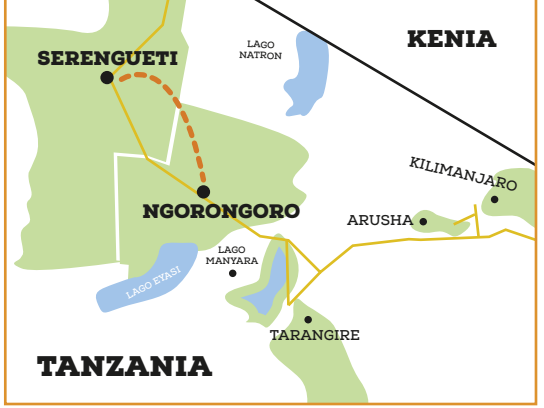
Day 4
SERENGETI
NATIONAL PARK

FULL BOARD
KISURA SERENGETI CAMP

In the early morning, after a great breakfast, we will bid farewell to our elephant friends to move us to the best park among any other, the Serengueti.

On the way we will have to cross the Ngorongoro conservation area where, in addition to seeing wildlife, the landscape will be spotted with many Maasais bomas. Before arriving at Seronera, we will have the opportunity to make a game drive through the endless plains of Serengeti where we can contemplate the peculiar rock formations known as Kopjes, to which lions and other felines usually climb to have a better view their prey.

The Kisura luxury camp, a luxury camp opened to the immensity of the Serengeti, will take us back to the time of the ancient explorers, offering us the best comforts in the heart of the Serengeti (Seronera) and in a unique location, where there are the best game drives of the Serengeti. This is where all the action is. It is surrounded by two Kopjes, which you can climb to contemplate an unforgettable sunset. Get ready for an exciting night, full of sounds of purest and wildest Africa.



Day 5

NATIONAL PARK

SERENGETI

FULL-BOARD STAY

KISURA SERENGETI CAMP

We will wake up soon to start the game drive in the biggest live show in nature. It will last the whole day. We will have lunch in a picnic area located near a pool of hippos, which you will be able to observe four meters away. After a magnificent and wild game drive, worthy of the best animal reports, and before returning to our luxury camp, we will stop at the Seronera visitor center. **We will have the opportunity to know a little more about the secrets and history of Serengeti, to see skulls of different animals,** to make an educational journey while walking among kopjes and to know more closely its funny and curious inhabitants, the rocky hyraxes.

Día 6

ÁREA CONSERVACIÓN

NGORONGORO

ESTANCIA PENSIÓN COMPLETA

HHANDO COFFEE LODGE KARA

As usual, we will get up early in our luxurious

Serengeti camp to leave to the great volcano of Ngorongoro. On the way to the exit of the Serengeti national park, we will make our last game drive in this park, which never disappoints.

We will stop at Naabi Hill (the border between the Serengeti plains and the Ngorongoro Conservation Area), **where we will enjoy the views of the savannah, on top of a Kopje** transformed into a viewpoint. You can also send a postcard to your loved ones from there.

Once we take the road again, already in Ngorongoro territory, **we will make a stop in a Maasai boma. They will welcome us with their traditional songs and dances,** which we will join and in which we can to participate. They will invite us to get into their homes so that we can see the way they are made by hand.

Then **we will follow the route until reaching the great volcano of the Ngorongoro and we will get into its caldera** by descending 400 meters, to carry out an impressive game drive in the volcano of Eden, named this way by the great amount of wild fauna that lives in its caldera .

Hopefully, we will have the privilege of seeing the black rhinoceros, which lives in the crater. It is one of the most endangered species in the world.

We will have lunch on a picnic site on the banks of the freshwater lake that is inside the caldera and which is inhabited by many hippos.

After observing the explosion of wild life, we will travel to Karatu, a village located between the mountainous hills of Ngorongoro, where we'll stay in a very special and unique lodge called HHANDO COFFEE LODGE. There, we can enjoy the swimming pool.

Day 7
LAGO MANYARA MTO WA MBU
NATIONAL PARK
VISIT TO THE ORPHANAGE
AFRICAN TRADITIONAL DISHES FOR DINNER

BED AND BREAKFAST
MANYARA WILDLIFE SAFARI LODGE

After a nutritious and delicious breakfast, we will continue our journey towards the national park of Manyara, famous for its climbing lions that get up to the branches of the trees, where they rest and look for a future prey. Once we finish the game drive and lunch box inside the park, we will start a fun and new tour with hanging bridges between the tallest trees in the inner depths of the park's green jungle.

Following our ideals of helping the communities that are in need, you will have the opportunity (if you wish) to visit one of the orphanages, with which Safari Africa and the NGO Moyoni (www.moyoni.org) collaborate directly.

You can personally donate clothes and/or school supplies, stuffed animals, toys, etc... in case you had brought them from your country of origin (for more information on what to donate or other humanitarian projects, you can request information directly from us).

Likewise, can visit a local craft market, in case you want to take some souvenir, other than what has already been lived.

In the evening we will have a wonderful buffet dinner consisting of more than 8 different traditional African dishes, prepared by a local family in the middle of a banana plantation.

You will spend the night at the beautiful Manyara Wildlife Safari Lodge, located in Mto Wa Mbu. Luxury cabins with private shower and toilet, and views of both Savannah and Lake Manyara. Swimming pool and internet.

Day 8
BIKE ROUTE TO LAKE MANYARA
ARUSHA-ZANZIBAR AIRPORT

Early, after breakfast, we will go on a bike safari to Lake Manyara. It is an easy and short route, crossing villages, plantations, forests of acacias and banks, until arriving at the same shore of the lake. There, we will conclude the adventurous days of safari. We will drive to Arusha airport, we will bid farewell to the safari guide and, from there, you'll continue by plane to the paradise of Zanzibar, where you will be picked up at the airport and transfererd to the hotel.

Some deserved relaxing days in a fantastic hotel in front of the best white-sand beach and crystal-clear waters of the island (Jambiani).

Overnight at Coral Rock Hotel (Jambiani).

Day 9
ZANZIBAR

HALF BOARD
CORAL ROCK HOTEL

Relaxing day paradise to do what is of your preference in this jewel of the Indian Ocean. You can enjoy a refreshing coconut water in the shade of a palm tree or hike to know the different secrets of the island.

In the early morning, after a great breakfast, we will bid farewell to our elephant

Day 10
ZANZIBAR
SAFARI BLUE

HALF BOARD
CORAL ROCK HOTEL

You will go again on safari (Safari Blue: optional, but included in the itinerary, as a gift from Safari Bike Africa).

It is a full day excursion in which you will be picked up in the morning in the hotel and, after choosing your size of fins, snorkels and tube, you will sail in a local boat to an island in which you can snorkel through coral reefs, glimpsing the great amount of tropical marine fauna and chilling out in its virgin beaches. After being offered a fresh-fruit snack, you will sail to another island where you will find a buffet of seafood, fish, vegetables, lobster, etc ... cooked in the purest Swahili style.

Once you are finished, you will return and take you back to the same Coral Rock hotel in Jambiani.

Day 11
ZANZIBAR

HALF BOARD
CORAL ROCK HOTEL

Day off to do what you want in this jewel of The Indian Ocean. You can enjoy extra excursions to discover the different secrets of the island

Day 12
ZANZIBAR
AIRPORT
INTERNATIONAL CONNECTION

After breakfast, you will be picked up and taken to Zanzibar Airport, to take your (not international connecting flight. Depending on flight schedules, you could visit Stone Town included in the itinerary). You should bear in mind that you must be at the airport 2 hours in advance, at least.

We are sure that you will have the best memories of this wonderful adventure with Safari Bike Africa and we hope to see you again on another of our exciting and adventurous routes.

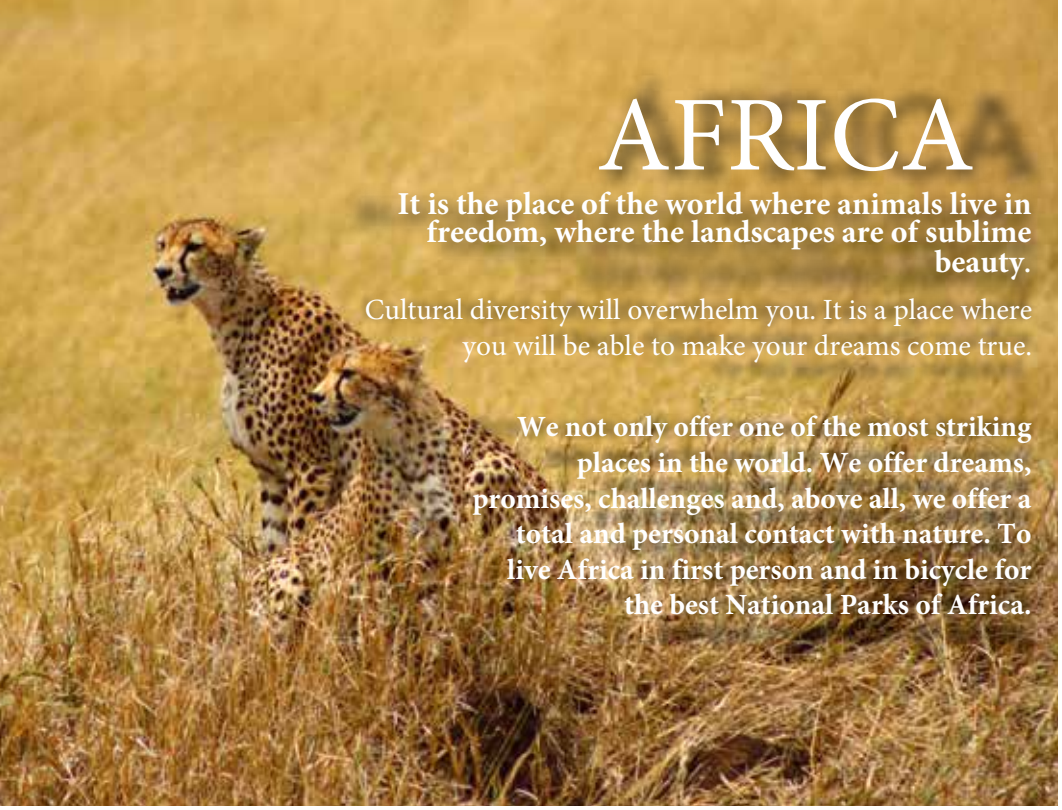
-



AFRICA

It is the place of the world where animals live in freedom, where the landscapes are of sublime beauty.

Cultural diversity will overwhelm you. It is a place where you will be able to make your dreams come true.

We not only offer one of the most striking places in the world. We offer dreams, promises, challenges and, above all, we offer a total and personal contact with nature. To live Africa in first person and in bicycle for the best National Parks of Africa.

US!

Mario Martos Rueda
José Segovia Rubio
Álvaro de Navasqués

Seriousness, responsibility and trustworthiness are our values.

Before any possible setback, we offer an immediate response thanks to the team that integrates Safari Bike Africa. This is possible thanks to the years of experience along which we've been organizing safaris.

We can also assure that we devote immense enthusiasm to every adventure we organize. Every route, kilometer and every special moment we'll live together will be unforgettable. **We know the land as if it were the back of our hands, we know what you want and, for this, we put all our means to get it.**

We offer adventures, challenges, fun, spectacular landscapes. In conclusion: we will make your hair stand on end, by contemplating the nature, having breakfast next to zebras, elephants..., among many other things.

The most important thing in our adventure is you!

Let yourself go and enjoy the adventure in a 4X4 car, on foot or on the wheels of your bike. We put the rest:

- **Guaranteed truck trips, for groups of 8 or more people.**
- **Safari Bike Africa exclusive truck.**

Our DAF truck has been modified for the most extreme conditions. No muddy road or difficulty will prevent us from enjoying the best and most complete of adventures. Better vision and position for taking photos. Refrigerator for drinks and portability for your multimedia devices, among many other advantages. Small groups in the **best** environment. All our vehicles have a wi-fi connection, with which you can send photos from the safari when the connection allows it. Our vehicles differ from those of other safari companies because they are the only ones that have this feature.

- **SLEEPING IN A MAASAI CAMP**

Our Maasais friends will be waiting impatiently for our arrival to give us a warm welcome. Our bungalows are located in the middle of the Maasai savannah. They have been built in the purest traditional style, paying attention to every detail and convenience to spend an unforgettable night with them and learn from their traditions, rituals and the history of the most famous tribe of warriors throughout Africa.

- **TOURISM WITH SOCIAL COMMITMENT**

Safari Bike Africa does not consider any kind of tourism which doesn't have a positive impact on local economic development.

In addition to the respect for the environment, we also support causes for the protection of the most vulnerable population. It is a fundamental pillar of our activity. This is the reason for our alliance and financial support to the NGO Moyoni (www.moyoni.org), established in Arusha, Tanzania.

Another way to help them is by choosing accommodations which are managed by local people and whose benefits are partly earmarked for projects such as the construction of schools and hospitals in the area. We also offer you the possibility to personally donate clothes, toys, stuffed animals, school supplies, etc ... and/or participate in other humanitarian and voluntary projects (consult us if you are interested).

• WILD CAMPING – FLY CAMP

Feel the wild nature explosion in first person! Camping or tented camps in the middle of national parks. We'll observe the immensity of Mother Nature. It is forbidden using earplugs: you will enjoy the "melody" of the African savannah, with roars of lions and the howls of hyenas under the immensity of an ocean of stars.

• BALLOON SAFARI IN SERENGETI NATIONAL PARK

The most exciting balloon safari in the Serengeti savannah. The takeoff of the balloon is at dawn, the best time to see animals and take spectacular photographs. After the balloon safari, you will enjoy a breakfast with champagne to toast this extraordinary experience. (Optional, not included in the price of the trip).

• PIONEERS AT OFFERING BIKE ROUTES THROUGH THE BEST NATURAL PARKS OF AFRICA. UNIQUE ACTIVITIES, NEVER NEVER PERFORMED BEFORE, FOR ALL LEVELS.

From bike routes to the highest place in Africa, the Kilimanjaro, or a relaxing bike ride along the lake shore of Lake Manyara, to a bike safari through the virgin jungle of Arusha National Park, and the most authentic route by Maasai lands in Ngorongoro.

• BIKE SAFARIS - CYCLING SAFARIS

Always escorted by the best staff and under the command of one of the armed rangers of the national park, for a complete and safe protection of our travelers. **The effort and good work of a solid and proven experience organizing exclusive safaris has made us deserve to have an exclusive route for Safari Bike Africa, throughout the conservation area of the Ngorongoro, a UNESCO World Heritage Site.** Without a doubt, the most special bike route in the world, from the Maasai village of Nainokanoka, to the Empakaaicaldera. An route for the enjoyment of a privileged few

• THE BEST MOUNTAIN BIKES FLEET OF AFRICA

We have the most modern fleet. With 2017 models, top range, and the best brands. They are all made of carbon fiber, with different models of suspension and different size of wheels, to enjoy a unique experience.

• THE BEST PRICE FOR THE BEST SAFARI IN TANZANIA WITH EXCLUSIVE ACTIVITIES.

Suspension bridges amid the jungle of Lake Manyara National Park, dinner with traditional tribes in Mto Wa Mbo, "Safari blue" on the island of Zanzibar, bike routes within national parks ...

• SAFARI BIKE AFRICA WELCOME PACK

Information brochure + cycling maillot + 5% discount for next trip with Safari Bike Africa.

WHY ON BIKE?

We are pioneers in making bike safaris. Our experience and hard work have made us able to offer unusual routes. We offer the best photo safari in Tanzania with activities on bike, in places that were not accessible in this kind of transport -until today-, such as the Ngorongoro Conservation Area (UNESCO World Heritage). Safari Bike Africa, has reached an agreement of exclusivity with different organisms to promote routes by bike.

In Safari Bike Africa we have got unique routes that other companies can only do in motorized vehicles and all under the watchful eye and protection of the guards of the National Parks to be able to assure the well-being of our family: travelers. We want you to have constant contact and as close as possible to the environment. This is why we use the bike, enjoying our passion, although we always have a support vehicle to ensure that the adventure develops correctly.

The bicycle has always been with us, and it is also the cleanest transportation and the one that less deteriorates the landscape. We all have a great dream, and we strive to achieve it. To do this, we use the bike as a means of displacement. And not only this, but with this two-wheel gadget you can access the wonders that the landscape shows us, wonders found in valleys, hills, lakes and even in craters of volcanoes.

We ensure an unforgettable experience. Our idea is born of many kilometers traveled around the world. This idea took us to a place as beautiful and unique as Tanzania, where beauty grows everywhere, and where you can discover beautiful paths by bike, allowing you to be constantly in contact with nature.

WHAT YOU SHOULD KNOW!

THE ADVENTURE

In search of freedom! That is why in SAFARI BIKE AFRICA we understand our expeditions as a great experience of life, helping to know and respect the world in which we live.

Our scheduled trips are committed to nature conservation projects as well as the recovery of endangered species and, above all, committed to the integration of people from diverse ethnic groups with many difficulties. We always collaborate with local communities for them to get benefited economically and culturally of our activity. We want to highlight our cooperation with the NGO Moyoni, to which we will donate 2% of the price of the trip, with the aim of betting on the development of projects for the eradication of poverty, the promotion of education and the eradication of child malnutrition. We want to be responsible with local communities. We want to bring the Maasai culture closer to the travelers so that they can get to know this new world first hand. We do this the way we know the best: by offering the best safaris in Tanzania and opening a door to a completely different and unknown concept.

We are a guarantee of success in all our safaris, in addition to offering totally new bike activities, characterized by being accompanied by the guards of the National Parks. With routes by bike for all levels and with the best fleet of mountain bikes in Africa. High-end carbon 2017 models and with the best brands on the market. **We hope to exceed all your expectations in our great adventure "MAASAI LAND II", which includes 3 bike safaris qsgr_`jc dmp _jj _sbgclacq, in Arusha National Park, Kilimanajro National Park and Lake Manyara. Are you ready to experience riding a bike in national parks and reserves?**

The safaris that we propose to you are the result of the experience achieved for more than 10 years, working as experts in luxury travel and as professional guides in Africa. The route is designed looking for the perfect balance between safety, comfort and the freedom to travel in modified 4x4 vehicles for safaris. You just have to worry about enjoying. We take care of the rest.

As a general rule, traveling with Safari Africa does not require special physical characteristics. The only exceptions are some extra-difficult routes but you will be advised by our staff, where appropriate.

You just need to enjoy nature, be sensitive to the ethnicities and cultures that we find on the route and engage in the active participation of the trip. We can assure you an experience that probably you'd never felt before.

ADVANTAGES OF TRAVELING WITH SAFARI BIKE AFRICA

GUIDES

Safari Bike Africa will provide European guides as well as local Spanish-speaking ones that know the area and where the route goes. They will help us to our trip into an unforgettable adventure. His kindness and good sense of humor, together with his resolving abilities, make of them a well-prepared team when it comes to solving problems or setbacks that may can find.

We have a long experience as safari tour operators and performing different activities by bike in Africa, through the most remote places and in the most adverse conditions.

The leader of the trip will always be a Spanish and English speaking guide.

Our guides love Africa and work the whole year. They know perfectly the best places to see the most elusive animals and the most secret locations. They are guides sent to Tanzania to lead your expedition. All of them have passed a demanding selection process that demonstrates their leadership with groups, experience in safaris and enthusiasm. **They have great knowledge of the fauna and flora of the national parks. Also, they have been trained in previous safaris with our management team in order to solve any problem that might come across.**

BEST VALUE FOR MONEY

We offer the best value for money on the market. Traveling in a group in our truck means dividing costs. Thanks to this reduction of costs, we can include luxury accommodation within the trip to have an unforgettable experience.

TRUCK EXPEDITION

The expectations of the travelers are always surpassed by our routes by truck. It is not easy to explain what a truck trip is really like with us ... it's best to live it! **We take care of every detail to make of it an unforgettable adventure full of sensations. Safari Bike Africa has structured the adventure in the most inhospitable and wild places respecting the comfort that our western clients require.**

Our truck has been modified to give the best service in the most adverse and demanding conditions. The modifications have been carried out to give habitability, functionality and autonomy, which allows us to be self-sufficient throughout the expedition, having space for all camping material, kitchen equipment,

tanks with more than 500 liters of diesel, water tanks, etc ... The height of the truck in which we travel will allow us to photograph animals that are not possible to see from other kinds of vehicles. For more information on our vehicles, continue reading.

WHAT YOU SHOULD KNOW!

VEHICLE FLEET

We have three types of vehicles that offer all the guarantees to have an unforgettable trip:

First and the one why they talk about us: our bikes.
It is the main tool of our pioneering and innovative way to make safaris on two wheels. In our adventure, we have spared no expense to enjoy the highest brands and ranges. We have a fleet of mountain bikes of the best brands. The latest models of 2017, all carbon and high-end. They are available to our customers, in different models and sizes, with different wheel sizes, single and double suspension, etc.

Our vehicles are the most used on safaris. Land Cruisers of Toyota with 4x4. We have models of 6 and 8 seats that have been improved to make the experience unique. They include a refrigerator with fresh drinks, power sockets for charging phones and batteries, long distance radio for communication between guides and modified walls and windows that facilitate the viewing of the landscapes. The roof is collapsible, so you can enjoy a great view and make the best photographs.

We have prepared our vehicles so that they can go anywhere. The Land Cruiser 4x4 is required for safaris in remote areas and in rainy times, as well as in areas that have poor roads or black cotton floors, which are very slippery when wet. The 4x4 is also necessary to descend to the crater of Ngorongoro, due to the ways we need to take are steep and somewhat tricky.
We are the only operator of safaris that includes wi-fi connection in all its vehicles. With us, you will have wi-fi for whatever you need.

Our DAF Leyland 4x4 truck, with all-wheel drive.
It has chargers for your smartphone or camera. In addition, it has a refrigerator for drinks and a freezer. As for the bikes, we have tools, spare parts, spare bikes and inflating pump.

It also has an individual space with drawers. The truck is modified to enjoy the best views with open windows. The seats have been replaced by more comfortable chairs that allow our travelers to relax.

ACCOMODATIONS

The combination of accommodations for our truck trips has been carefully studied and contrasted in order to not to lose a single bit of adventure and endow the route with high-quality standards. We will alternate nights in high-quality tents (depending on the route in question), in luxurious lodges, tented camps and mobile camps, that have both the comfort and the services of a luxury hotel. All this, in the middle of the African savannah.

The balance between accommodations, wild spaces and added values make our trips very special. There is no doubt that the travelers of Safari Bike Africa have the privilege of enjoying our comfortable accommodations.

FOOD

As with the accommodation, it will be the characteristics of the safari the ones that will mark the type of food.

The support vehicle has a chef at our disposal (depending on the route). Our chef will prepare different menus, according to the configuration of each stage.

- At breakfast, we will have chai (tea), coffee, chocolate Juices, fruits, cereals, toasts, fried or scrambled eggs, cheeses, beans, sausages and bacon.
- The menu at the provision points during our route on bike will consist of sandwiches, samosas, hard-boiled egg, roast chicken, chocolate, fruit and juices.
- At dinner, our cooks will prepare delicious soups, rice or pasta, barbecue meats and vegetables.

Let us know in advance any dietary needs or if you prefer vegetarian food.

In addition to the 3 daily meals stipulated in the itinerary and a included in the price of the trip, we are free to enjoy the local gastronomy that we might find in the towns during the route whenever we want.

The water, during the whole trip, will be bottled. Only Safari Bike Africa does this. The rest of agencies that go through this kind of routes use purification tablets to treat non-potable water; this way, the water obtains a chemical taste and many times is not safe.

BEFORE TRAVELLING

VACCINES

Before traveling to Tanzania, you must make an appointment at the International Vaccination Center of your city or go to your family doctor. The appointment at the International Vaccination Center can be made in the following link: https://www.msssi.gob.es/sanitarios/consejos/vacExt.do

The recommended vaccines are: tetanus, typhoid fever, polio and hepatitis A.

Prophylaxis against malaria is necessary. We recommend the use of insect repellents and proper clothing to prevent mosquito bites.

Yellow fever vaccination certificate is required for travelers from countries at risk of transmission and travelers who have spent more than 12 hours at the airport of a risky country. Vaccination against yellow fever is not recommended in areas where the risk of exposure is low. The Yellow Fever Vaccination Certificate is valid for life. Although we have not previously traveled to any country with risk of transmission, we will be required at the airport of Zanzibar when we finish the safari.

FIRST AID KIT

Our support vehicle comes equipped with a full first-aid kit, but it is important that travelers do not forget their own first-aid kit with the medicines they normally use, in addition to:

- Malarone prophylaxis to prevent malaria or as a medicine
- Mosquito repellent. We recommend using the brand Relec Super Strong, Especially from dusk to the early morning.
- Amoxicillin in case of allergy.

WHAT YOU SHOULD KNOW!

- Loperamide, Fortasec, In case of diarrhea
- Paracetamol
- Ibuprofen.
- Band-aid or vaseline for blisterings

WEATHER

The climate is tropical and the coastal areas are warm and wet. During the day the temperature is between 25ºC and 30ºC, descending at night to 10ºC. Its proximity to the tropics makes the sun's rays stronger, so we recommend taking precautions to not to get burnt while we are exposed to the sun.

The rainy season is between April and May. Although it is called "heavy rains" due to its storms, these are not continuous and usually last only a few hours. Thanks to the fleet of Safari Bike Africa (trucks and Land Cruisers 4x4), there is no mud on the road that can stop us while visiting the area. It is a good time to enjoy green meadows and parks that are less visited by traditional tourists. For some, it is a special time to travel. The central plain is dry and arid. The northwest highlands are cooler and have a milder rainy season from November to December.

It is recommended to wear appropriate clothes for this kind of weather. The tropical climate lasts all year round, although depending on the altitude (for example, in Ngorongoro Conservation Area, at 2000 m) we may need winter and waterproof clothes. At night the temperature can drop to 5ºC.

LUGGAGE

In addition to your suitcase, we highly recommend bringing a small backpack where to store things we may want to have on hand while we are riding the bike or hiking. The suitcase can not be rigid because there may be space problems to store it in the truck compartments.

The airlines that fly to Zanzibar charge fees for the excess of luggage. There's a 15Kg limit. For bike routes, it is best to bring technical clothing (jersey and culote), for greater perspiration and avoid chafing.

In addition, it is very important not to forget to put soap into the toilet kit, as well as high-protection-grade sunscreen. The sun of the equator is stronger than the one we are accustomed to.

DO NOT FORGET

- Passport valid for at least 6 months.
- International vaccination card and yellow fever vaccination certificate if you have previously visited an endemic country.

- First-aid kit and medicines, the latter for travelers under medical treatment. Do not forget mosquito repellent or antimalarial prophylaxis.
- Bring changed dollars in small bills from your home bank, so you won't have to pay the exchange house commission in Tanzania. They only accept dollar bills that have been printed no more than 10 years ago. Along the route, there are few banks and ATMs. We will inform about their availability the route.

- Head-on torch to illuminate and move at night inside the camps.

- Sunglasses with UV protection.
- Sunscreen with a high degree of sun protection.
- Very comfortable summer clothes, winter pants and jacket or fleece. A raincoat is also required.

- Quick-drying towel.
- Sandals and sneakers.
- Mobile phone, accessories and charger.
- A good camera to shoot everything we'll see in this adventure. Do not forget extra batteries and memory cards.

- Binoculars with which no animal could escape from sight.
- Sleeping bag and small pillow for the nights in camps.

- Food supplements to fight exhaustion, energetic bars and gels have a high concentration of calories and minerals.

- Small backpack to carry personal effects during the route.

DIFFICULTY

We understand that not everyone has the same physical characteristics. Therefore, we have prepared each route and periodically inform about the level of difficulty involved. It is not the same taking a flat route, for example, than climbing the Kilimanjaro -although in the latter you will have a bicycle carrier in case you need it-.

People from all over the world come with an illusion, with goals and to overcome their challenges. If you don't have any by now, this is the best place in the world to get stronger by creating, inventing and fulfilling yourself.

SECURITY

In Safari Bike Africa the safety of our customers comes first. Although we may think that a bike safari can be dangerous, it is not. The one by bike is the same as the popular safari on foot, where two rangers guard and guide us at all times.

We do not have permission to ride our bicycles in each and every one of the parks. Bike safaris will be only made in the parks where the conditions are adequate and there is no danger of wild animals.

We'll do our best to make you feel safe and put at your disposal all the security that is necessary for you to enjoy this great adventure. We are a specialized team. We also can count on the rangers as well as on our professional guides.

Our goal is for the customer to enjoy and return on a second occasion to enjoy with us, so we have prepared and reinforced the basic safety rules. The customer does not have to worry about anything. Safety always goes first.
